ELAPSE SEMINAR REGISTRATION

Tuija Liuko
TAVI Congress Bureau
Papinkatu 21
FIN-33200 Tampere
Finland

Fold along dotted line and fix with tape or staples. Don't forget to add a stamp before posting!

What is ELAPSE?

The Brite/EuRam ELAPSE project (Extending the Economic Lifetime of Ageing Plants by Systematic Engineering, BE 96-3044) is a major research programme involving researchers and industrial participants from four countries. Their aim is to develop a methodology for maintenance that takes advantage of the common ground between safety, reliability and maintainability to help European process industries reap maximum economic, social and environmental benefits.

For more information about ELAPSE contact:

Jari Schabel, Project Officer

phone: +358-3-316-3281

fax: +358-3-316-3282

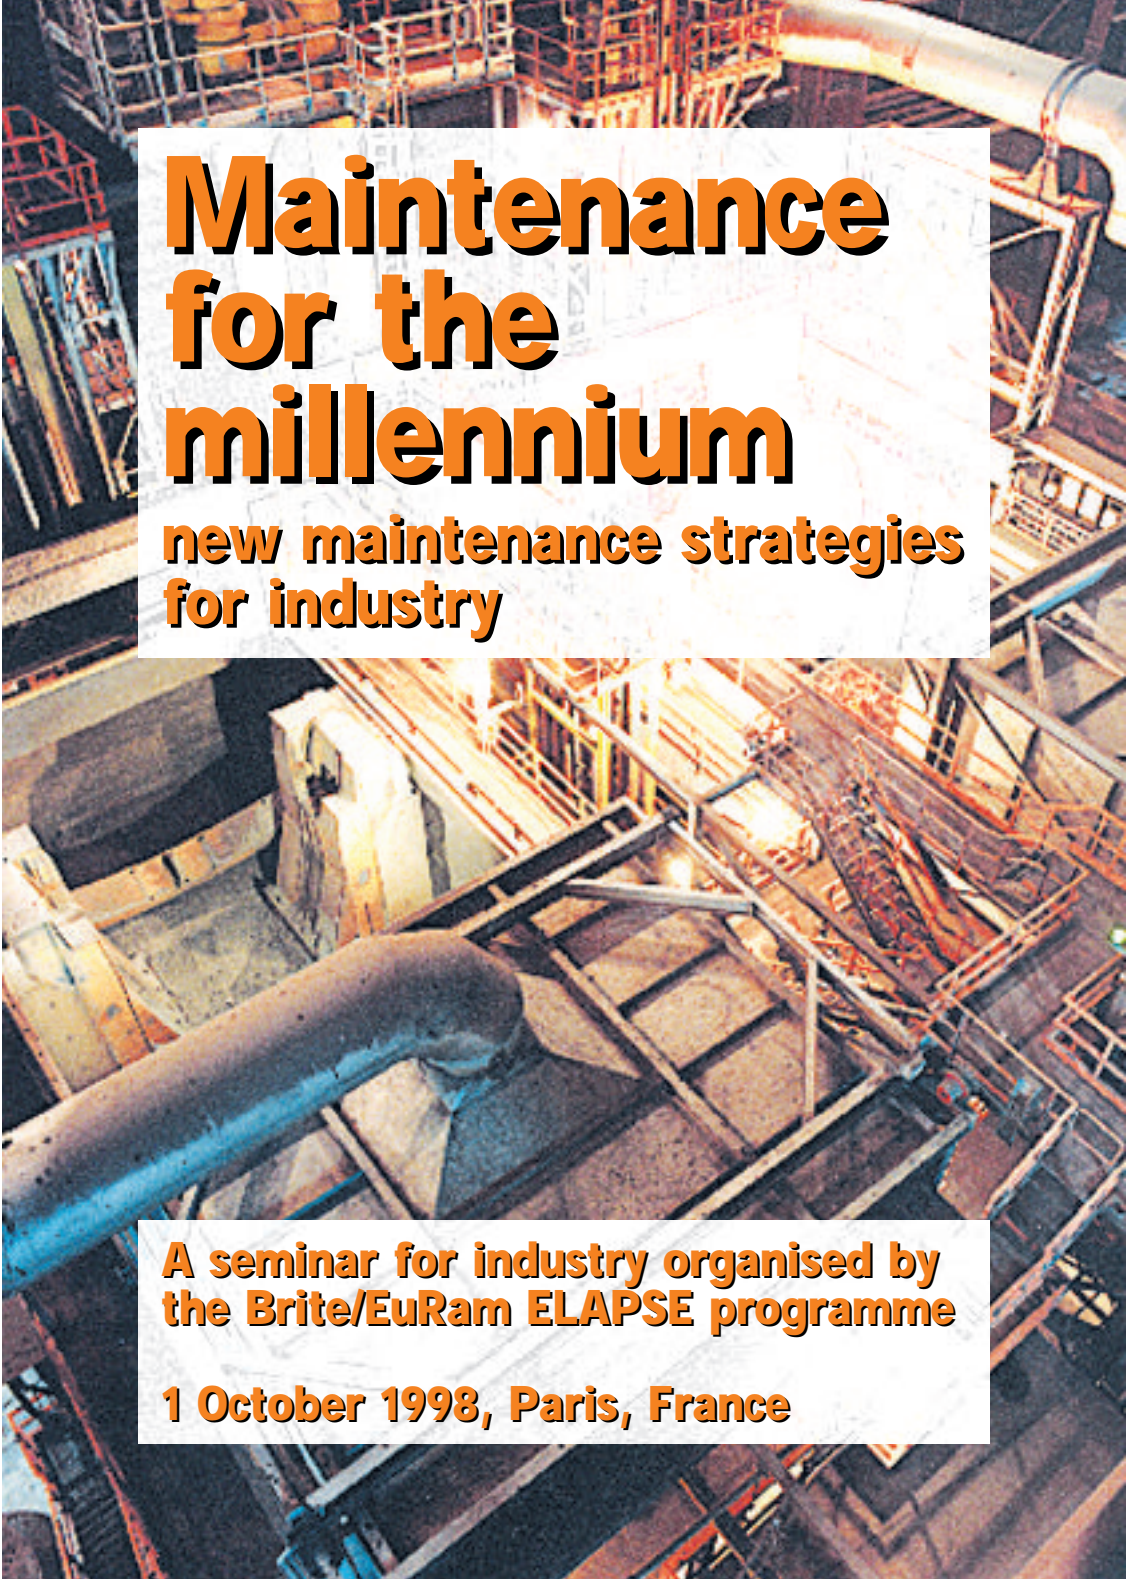

e-mail: jari.schabel@vtt.fi

or visit the ELAPSE website at:

ELAPSE

Maintenance for the millennium

new maintenance strategies
for industry

A seminar for industry organised by
the Brite/EuRam ELAPSE programme

1 October 1998, Paris, France

Industrial maintenance

The seminar aims to stimulate a constructive discussion of trends and needs for maintenance in process plants.

Who should attend?

Maintenance managers, risk and reliability engineers.

How can your industry benefit?

In order to remain globally competitive, European process plants must improve production efficiency and quality, while at the same time reducing costs and downtime. A tall order — and one where plant maintenance strategies, particularly for older plants, can play a key role.

1 October 1998, Maison de la Chimie, Paris, France

new strategies for the

Programme

The seminar begins at 9:30 and ends with a discussion session starting at 16:15. Registration begins at 9:00 and coffee will be available. Speakers will include:

Jouko Suokas and Helena Kortelainen

VTT, Tampere, Finland

The ELAPSE methodology: planning and decision criteria for maintenance.

Robin Willows

British Steel, Teesside, UK

Maintenance strategies: TPM and ELAPSE help to cut engineering costs and quality loss at a concasting plant.

Risto Elo

UPM, Jämsänkoski, Finland

Maintenance strategies in the paper industry: a maintenance information system combined with ELAPSE methodology helps to improve production efficiency.

Det Norske Veritas

Cutting costs safely with risk-based inspection services.

Hervé Loyer

Siveco Group, Paris

Computerised maintenance management: new challenges to improve plant management and reliability.

How to register

Date 1 October 1998.

Venue La Maison de la Chimie, 28 Rue Saint Dominique, Paris, France.

Deadline for registration 15 September 1998. The seminar will be limited to 70 participants, to ensure good opportunities for discussion. Places will be allocated on a first come, first served basis.

How to pay The registration fee is FF 950 / FIM 865 (including seminar notes, lunch and coffee). Payment is accepted in French francs (FF) or Finnish marks (FIM). You can pay by credit card using the form below, or by bank transfer to:

OKOBANK Tampere, Finland SWIFT address: OKOYFIHH Account number: 573008-2115851
Please indicate "ELAPSE '98" and your name on the remittance. No cheques are accepted.

How to register Fill in this registration form, detach it and fax it to +358-3-2132-840, or mail it to TAVI Congress Bureau, Papinkatu 21, FIN-33200 Tampere, Finland, contact person: Tuija Liuko. Successful applicants will be sent confirmation of their registration.
